

Sr. Program Coordinator , Sana and her implementation team have successfully guided our partner Child Care Institution (CCI) in the state of Madhya Pradesh for the “transformation of care from institutional care to family-based and alternative care” pilot project in the last two years. The project is now moving towards self-sustainability and community engagement with the partner team taking a complete lead.

When we say that “children belong in families/communities”, we do not necessarily mean that all children must be reintegrated with their biological parents. We believe that a child must have complete authority to determine where s/he wants to live.

To understand why and learn more about this story, check out the link below.
