

This #DaanUtsav, we have a special campaign for you – our closest supporters. Every year, thousands of vulnerable children enter Child Care Institutions (formerly called orphanages) in India. At Miracle Foundation India, what we want to do is to build a future for them, with families.

Why a family for every child?

Long-term studies as well as common sense tells us that a child is better off in a family rather than in an institution. Although some get adopted, a large number of children grow up in the institution itself, eventually “aging out” at 18 years, when they are left rudderless. Within a family, such an “age limit” naturally does not apply. The emotional bonds and care that a family member gives provides a stable basis for life, and the chances of leading a productive, healthy life increase manifold in a family.

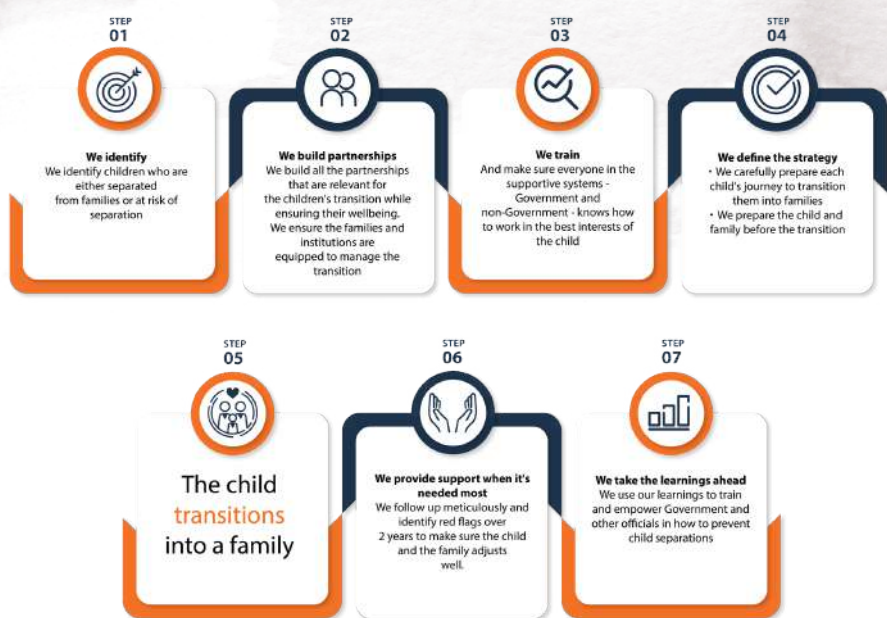

This is why we work in close collaboration with Government and non-Governmental partners to chart a child’s journey back into safe and healthy family environments.

What you can do to help

Spread the word about the new campaign among your friends, family and colleagues. Each time you forward a message or introduce this cause, you increase the chances of a **family for every vulnerable child in India.**

Because we have a bigger goal ahead of us. We want to positively impact the lives of 2.5 lakh children by 2027. We cannot do this without your help.

Miracle’s team tracks a child’s well-being in 5 domains – family and social relationships, household economy, living conditions, education and health/mental health. This makes sure that a child settles into a safe and caring environment with a family. Follow ups to track well-being continue for two years!
