**A Family For Every Child In Our Lifetime**

---

# OUR VISION & MISSION

---

## Our Vision

A family for every child in our lifetime

## Our Mission

We empower children from disadvantaged communities to reach their full potential

Miracle Foundation India is a child protection organisation committed to ensuring that every child grows up in a safe, stable and loving family. We work across the country with government systems, the social workforce and community organisations to prevent unnecessary separation, strengthen vulnerable families and promote Family-Based Alternative Care for children who cannot remain with their biological families.

Our mission is rooted in a simple belief: children thrive when families are supported. Families are the primary source of care and protection, and strong public systems are essential to help them stay resilient. Across ten states, we partner closely with state governments, district administrations and civil society to improve gatekeeping, early prevention, reintegration and sustained follow-up with families.

Our approach focuses on building the capacity of the social workforce, strengthening public systems and ensuring that responses to children and families are timely, coordinated and grounded in real needs. Through training, collaborative reviews and continuous dialogue with frontline teams, we support the ecosystem to deliver consistent and high-quality care.

Our vision is a child protection system where families receive the right support at the right time, frontline workers have the tools and guidance they need and public systems are equipped to create lasting change. We remain committed to collaboration, learning and partnership so that every child has the opportunity to grow up in a family.

## A MESSAGE FROM OUR CEO

Dear Partners and Supporters,

Every year, it feels as though we move forward with more clarity and much more purpose. The year 2024 to 2025 has been a time of steady progress, deep listening and meaningful collaboration across all ten states where we work.

One understanding has grown stronger. The real force behind child protection in India is the social workforce and the government systems that guide them. They stand closest to children and families, responding every day to complex situations with commitment and care. Our role has been to support their leadership by listening, learning and ensuring our tools, training and dialogues strengthen their work.

This year, we saw important progress in gatekeeping, prevention and Family-Based Alternative Care across Tamil Nadu, Maharashtra, Karnataka, Kerala, Telangana, Gujarat, Jharkhand, Madhya Pradesh, Bihar and Tripura. Regular dialogues with District Child Protection Units, Child Welfare Committees and childcare institutions helped us refine the ThriveScale methodology so that it remains practical and rooted in the realities faced by families.

Our partnerships with state governments deepened under Mission Vatsalya. Together, we strengthened training structures, district-level review processes and reintegration and follow-up

systems. These collaborations reflect our belief that strong public systems create lasting and large-scale impact.

The Care Collective continued to grow as a platform for shared learning, bringing together organisations committed to keeping children in families. This convergence has helped ensure early, consistent support for vulnerable families.

We remain deeply grateful to our donors, partners, government departments and community organisations whose trust enables our work. Above all, we are thankful to the social workforce across these ten states. Their dedication inspires us every day.

Warm regards,

Kusum Mohapatra  
Regional Director, Asia and Africa  
CEO, India  
Miracle Foundation India

## FROM JUSTIN'S DESK

### *Defining How We Move Forward*

The Miracle Youth Program is designed for the youth, by the youth. It rests on a simple belief: when we learn together, we grow together, and when young people lead, the future follows.

Last year, I was grateful to contribute not only as an employee of Miracle Foundation but as a global youth voice, representing care-experienced young people whose insights can reshape how the world supports them. Standing in that space reaffirmed that our lived experience is not a limitation: it is a leadership strength. As I now step up formally to lead the Youth Programming at Miracle, I carry this experience with me, determined to influence the wider ecosystem meaningfully and effectively.

I have participated in global forums and conferences such as BICON, which have given me the opportunity to present the real and often overlooked challenges faced by care leavers.

Building on that momentum, in the coming year, we plan to spotlight promising practices emerging across Asian countries to strengthen support systems for care leavers everywhere.

These international platforms have also strengthened my confidence to collaborate with civil society organizations and governments. They do more than create dialogue: they open doors for partnerships that shape youth programs across borders.

We may not be able to change any care leaver's past, but through our collective effort, we can absolutely change their future. And that future becomes brighter when youth lead the way.

Albert Justin  
Lead - Youth Program,  
Miracle Foundation India

# OUR WORK

---

## WE PREVENT CHILD SEPARATION

We ensure children stay with their families by partnering with state governments and activating community-based mechanisms that keep children safe.

## WE REUNITE CHILDREN WITH THEIR FAMILIES

We reintegrate children from institutions to families by giving them the proper support to stay together. We prefer biological families and kinship care to institutions whenever possible through support to government bodies and institutions.

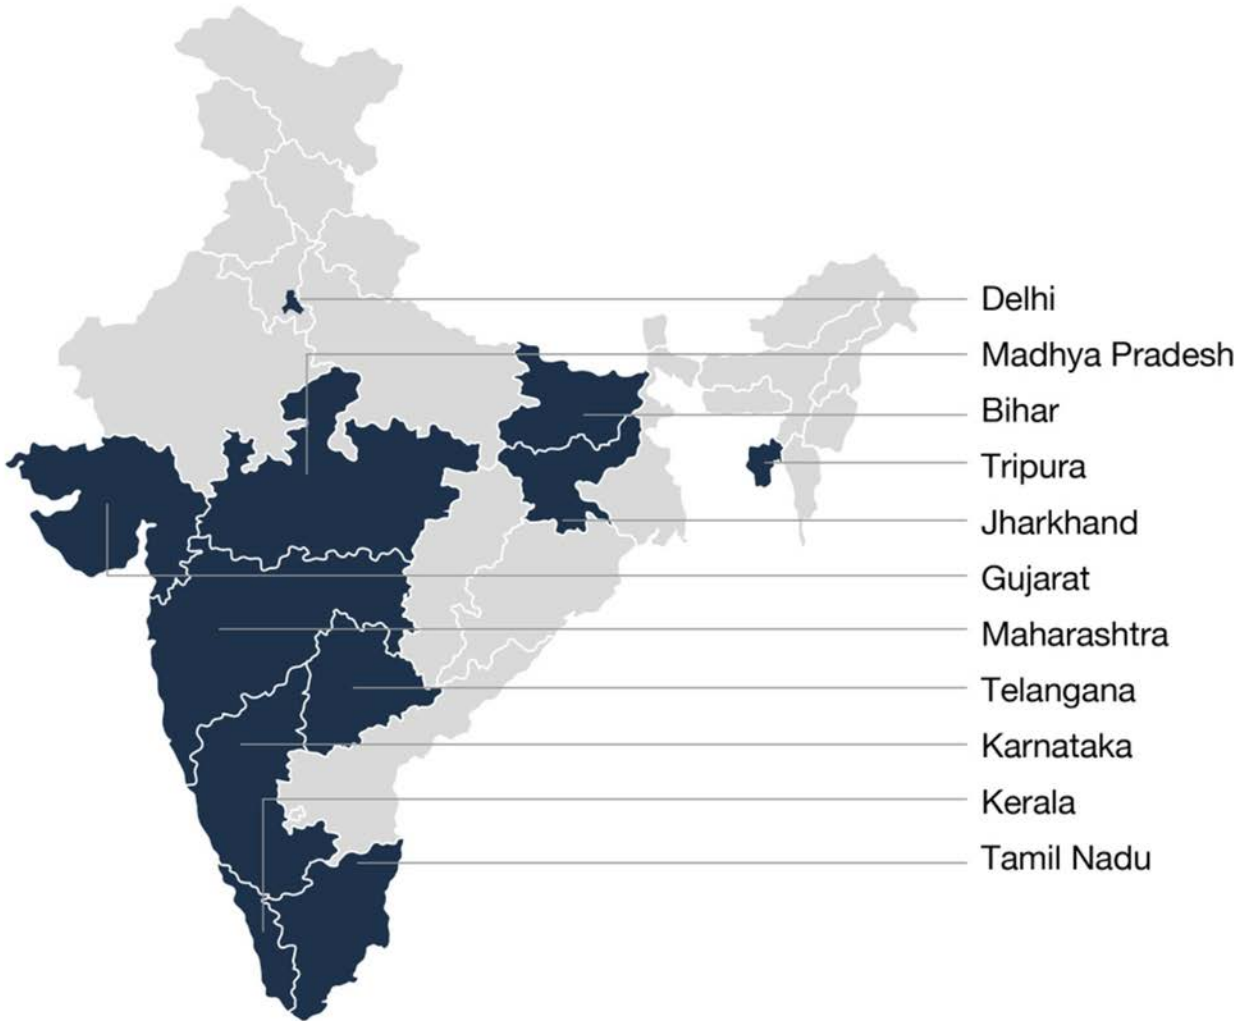

## WE STRENGTHEN FAMILIES OF CHILDREN

Utilizing our ThriveWell methodology, measuring across five well-being domains (Education, Physical & Mental Health, Family & Social Relationships, Living Conditions, and Household Economy), we work alongside the social workforce to ensure children grow up in safe, stable homes.

Reintegrated With  
Families

**4,002 SOCIAL WORKERS**  
Trained On FS And F-BAC,  
Reaching 200,100 Children

\*Data from 2024-25

# OUR IMPACT: STRENGTHENING COMMUNITY SYSTEMS (VILLAGE-LEVEL CHILD PROTECTION COMMITTEE)

Miracle Foundation India, in collaboration with Deepak Foundation, is actively working in Chhota Udepur district, Gujarat, to empower families and strengthen community support systems. The goal is to prevent institutionalization of children by ensuring they grow up in safe, stable, and nurturing family environments. A critical role in identifying families at risk and linking them to essential government schemes is played by the Village-level Child Protection Committees (VCPCs).

The story of Ritaben (name changed) is a powerful example of how these interventions can transform lives. Ritaben and her husband worked hard to provide a loving home for their five children. However, Ritaben's life took a tragic turn when her husband suddenly passed away, leaving her to raise their children alone. She was forced to move to a rented house in a new community. She worked tirelessly to provide for her children, but their living conditions were dire.

While on a routine visit, members of the local VCPC noticed Ritaben's hardships and the vulnerabilities her children faced. They quickly stepped in, assessed their needs, and facilitated the process of connecting them with crucial government schemes. This included enabling for Ritaben a widow pension of ₹1,200 per month, housing benefits under the Pradhan Mantri Awas Yojana, and access to ration supplies through the Public Distribution System. She was also supported in generating a recurring income by selling local spice packets. This enhanced her confidence and economic resilience, contributing

to the family's overall well-being.

And Ritaben's children, who were once at risk of dropping out and being institutionalized, were re-engaged in education. They received educational kits, including stationery, uniforms and books. Additionally, Ritaben underwent parenting skills training, which strengthened her relationship with her children. With continued support, they moved into their own house, equipped with electricity and proper sanitation facilities. What once seemed like an insurmountable struggle turned into a story of resilience.

This case highlights the crucial role of a well-coordinated child protection system at the village level. By identifying risks of separation early and taking preventive measures, children can be enabled to grow up in a nurturing and stable environment. Now isn't Ritaben's journey a powerful testament to the importance of community-driven interventions in transforming lives!

**1,036 FAMILIES**

reached through prevention program  
benefited with social protection

**4,829 CHILDREN**

prevented from family separation

# OUR IMPACT: STRENGTHENING COMMUNITY SYSTEMS (CHILD WELFARE COMMITTEE)

Suraksha (name changed) and her younger sibling come from a family facing extreme hardships in Mahabubnagar, Telangana. Despite her best efforts, their mother, a single parent living with HIV, struggled to make ends meet, and at one point even considered pulling Suraksha out of school so that she could help support the family.

Through a local social activist, when the Child Welfare Committee (CWC) in Mahabubnagar learned about Suraksha's situation, she was placed in a CCI. Here, she was provided with a stable environment that allowed her to continue her education. When Miracle Foundation India's team began facilitating the reunification of children living in institutional care with their families, Suraksha was also identified for reintegration.

Recognizing the family's economic challenges, the team intervened not only by facilitating Suraksha's education but also by working closely with her mother. They helped enroll her for the widow pension scheme, through which she started receiving ₹1,000 per month, and linked the family to the Public Distribution System which helped them with monthly groceries. Further, to ensure her health needs were addressed, she was connected with Antiretroviral Therapy for her HIV treatment.

Through Life Skills sessions focused on parenting, family care, health and hygiene, and counseling sessions on the importance of education, Suraksha's mother underwent a significant transformation in her perspectives. She gradually came to appreciate the value of her daughter's education, understanding its role in shaping a brighter and more secure future.

In 2023, after a thoughtful reintegration process, Suraksha was smoothly reunited with her family. Today, Suraksha is pursuing a Diploma in Medical Laboratory Technology; she plans to secure a job in a medical hospital in Mahabubnagar or Hyderabad. With her income, she hopes to support her family's financial stability, including her mother's healthcare.

Although the stigma surrounding her mother's HIV status persists in the community, the team continues to work with local self-help groups and Panchayat representatives to connect the family with community support. Extended family members have already started assisting, helping the family gain some stability.

Inspired by incredible stories of transformation such as this one, we strengthen our resolve to champion family-based care and build meaningful community partnerships.

**1,020 FAMILIES**  
reached through our reintegration  
program benefited with social protection

**2,488 CHILDREN**  
reintegrated with families

# OUR IMPACT: STRENGTHENING FAMILIES THROUGH SOCIAL WORKFORCE

At Miracle Foundation India, as we strive towards enabling children to stay with their families and reach their full potential, we honor the incredible social workforce that makes it all possible! Through this annual report, we celebrate the efforts and achievements of Kaviya Priya from Tamil Nadu and Mukul Kumar from Bihar.

## Championing Change: Kaviya Priya's Journey of Empowering Families and Children

Beginning her journey as a social worker, Kaviya used to spend quite a bit of time with children, listening to their joys and concerns; this helped her build a strong perspective on children's issues and needs. Four years back, Kaviya - with a strong understanding of children's welfare - transitioned to becoming a program officer with Marialaya CCI in Coimbatore. In that role, her close engagement with Miracle Foundation India's team through training and discussion helped her understand the vital role played by family in a child's life. Engaging with government functionaries and community-based organizations further deepened her perspective on child protection.

In her role, Kaviya remains extremely approachable to parents and caregivers. Along with the Marialaya team, she conducts training sessions for parents on various topics, such as dealing with teen emotions, strengthening family relationships, and positive parenting. Her deep connection with children became strongly evident when a child confided in her about the struggles she faced at home, including domestic abuse by her mother, which hindered her education. Together with the CCI team, Kaviya intervened by speaking to the mother and eventually seeking help from the District Child Protection Unit (DCPU). Their persistent efforts ensured the mother understood the child's feelings and the importance of education.

Together with her team, Kaviya has trained over 40 families and has counselled more than 20 for feasible reunification, successfully reuniting over 60 children in the past four years. They continue to closely work with the DCPU and are regularly invited to train other CCIs in the district on how to prepare an effective Individual Care Plan (ICP). They also build community-level awareness on social protection schemes and entitlements. Over 250 children and more than 85 women from self-help groups have been trained by Kaviya and the team on children's rights.

Kaviya's journey reflects her dedication and inspires others to create meaningful change and ensure a better future for children.

## Bringing Children Home: Mukul Kumar's Journey of Hope and Commitment

For the past seven years, Mukul, now working as a Child Protection Officer in Patna, Bihar, has been dedicated to child protection. Since 2019, he has been associated as a Master Trainer with Miracle Foundation India, strengthening his expertise in family reunification and F-BAC, including facilitating placements of children in kinship care and adoption with a more structured approach. Mukul has been actively spearheading regular meetings of Child Protection Committees across all 23 blocks in the Patna district, focusing on the prevention of child separation and gatekeeping. Under his leadership, his team identified and supported 1,260 children who lost both parents during the pandemic, also completing their Social Investigation Reports (SIRs).

Additionally, Mukul has supported 591 children in accessing the benefits of the Sponsorship Scheme in

Patna. His team's efforts enabled around 70 children to find permanent homes through adoption, 13 of whom were between 14-16 years old, a rare thing to happen for this age group. Besides, Mukul and his team successfully enrolled 143 out-of-school children in school by coordinating with District Education Officers.

Mukul also organized Aadhaar-linked biometric authentication camps, which enabled him to trace the families of nearly 30 children from Gujarat. After eight years, these children were joyfully reunited with their families, marking an unforgettable milestone! Immersion and cross-learning trips to other states of the country have brought Mukul first-hand insights into childcare practices there, helping enrich his approach towards supporting children in institutions.

**4,002 SOCIAL WORKERS**  
trained on FS and F-BAC, impacting  
200,100 children

**90 VILLAGE CHILD PROTECTION  
COMMITTEES & 83 BAL PANCHAYATS**  
activated

# OUR IMPACT: STRENGTHENING FAMILIES THROUGH YOUTH ACTION

Miracle Foundation India's Youth Ambassadors, drawn from CCIs and local communities, play a vital role in raising awareness about the importance of a family for every child and driving meaningful impact. Through this annual report, we celebrate Simran Irfan Khan from Maharashtra, and Loudya Chowhan Somnath Nayak from Telangana; both of them joined our Youth Ambassadors' Program in January 2024.

## Inspiring Change Through Joyful Learning: Simran's Journey of Empowering Youth

Currently pursuing a Bachelor of Science degree, Simran's journey with us began as part of the very first Bal Panchayat group, where she discovered her passion for empowering young minds. During the COVID-19 pandemic, she worked closely with the team to distribute ration kits to families in need. Together with the team, Simran also played a key role in initiating impactful programs such as the Ward Child Protection Committee and supporting activities within the Child Parliament. Through workshops, she gained a deeper understanding of child protection issues, fueling her mission to create meaningful change in her Ramnagar slum community in Pune.

Simran's unique approach to education is shaped by her own childhood struggles. Initially uninterested in studying, she found her curiosity sparked when she explored learning in a way that resonated with her. This transformation inspired her to help others discover the joy of education. Starting with just 4 children in 2019, Simran now teaches 80 regular students. The first student she ever taught now assists her in the classroom, and more youths are joining her, actively contributing

to the learning environment. Her initiatives have reached over 600 children, incorporating activities like yoga, life skills, and sports to make learning engaging and fun.

Simran's journey highlights the power of curiosity and dedication. Through street plays and interactive activities, she empowers youth, addresses their educational challenges, and inspires her community to prioritize child welfare. As a Youth Ambassador, she wants to foster joyful learning and is paving the way for a brighter future.

## Championing Equality: How Somnath is Transforming His Journey into a Force for Change

Originally from the Lambada tribe in Telangana, Somnath faced the heartbreaking loss of his parents at the age of seven. He found support and care in a CCI where he was subsequently raised. Currently pursuing a B.Sc. in Nursing in Mahabubnagar, Somnath is deeply committed towards making a lasting difference in his tribal community.

Somnath's commitment to social change is deeply rooted in his personal journey and empathy for children at his CCI, which over a period of time evolved into broader community outreach initiatives. He has previously conducted impactful training sessions on sexual and reproductive health, and gender equality. Additionally, Somnath has been facilitating sessions on gender equality in government high schools.

As a Youth Ambassador, Somnath is eager to enhance his skills, particularly in communication. He is determined to inspire and mobilize youth from his area, encouraging them to stand up for their rights. His dedication to creating a more informed, empowered community is a testament to his belief in the power of education and collective action.

# HIGHLIGHTS FROM THE YEAR

## National Family Summit 2025

We, at Miracle Foundation India, were pleased to host the National Family Summit 2025 on February 13-14, 2025, at India Habitat Centre, New Delhi. Over two days, the first-ever edition of the National Family Summit brought together government leaders, child protection experts, practitioners, funders and youth champions to advance the conversation on family-based care and child protection. The discussions were insightful, the energy was inspiring, and together, we took another step toward ensuring that every child grows up in a safe, loving, and nurturing family environment.

At the summit, we heard from national and global experts who shared best practices and solutions for keeping children within families. The summit facilitated critical conversations on FS, F-BAC and the role of cross-sector partnerships in child protection. The active participation throughout the event demonstrated the growing commitment to family-based care as the foundation of child protection.

Here's a [short video](#) capturing key moments from the summit.

Well, the summit was not just an event—it was a call to action. We are excited to keep this momentum going and continue working toward a future where every child has the opportunity to grow up in a family. View the summit's full report [here](#).

# HIGHLIGHTS FROM THE YEAR

## Leadership Dialogues

During 2024-25, we hosted three editions of Leadership Dialogues. A transformative platform designed by Miracle Foundation India, the Leadership Dialogues aim towards elevating and influencing the discourse surrounding FS and F-BAC in India.

The third edition of Leadership Dialogues, held in May 2024, explored diverse gatekeeping practices at the local governance level, sharing success stories and highlighting the role of Panchayati Raj Institutions (PRIs) and community volunteers in prevention, FS and F-BAC.

The fourth Dialogue, facilitated in July 2024, focused on building a common understanding on FS and its critical role in transitioning children from Child Care Institutions (CCIs) to families, while showcasing promising practices and recognizing the social workforce.

The fifth edition, held in September 2024, emphasized the importance of linking FS interventions with social protection schemes to strengthen families and communities, identify risks early, and promote preventive measures for children at risk of separation.

Panels across these sessions featured government officials, UNICEF experts, Civil Society Organizations (CSOs), and community leaders, providing diverse perspectives and actionable strategies. Collectively, the dialogues deepened understanding, promoted collaboration, and celebrated the child protection workforce driving care reform in India.

# HIGHLIGHTS FROM THE YEAR

## Empowering The Care Collective

Miracle Foundation India's endeavors are focused on devising a long-term, scalable, sustainable model of change owned by the state governments, dedicated towards keeping children safe, preventing unnecessary separation of children from their families, and facilitating their safe and permanent reintegration with families, to empower children and youth to realize their fullest potential and lead fulfilling lives.

An innovative idea to make that happen was to have seasoned local organizations – Care Collective: Centers for Excellence – identified in consultation with the state government departments and capacitated by Miracle Foundation India – play the distinctive role of FS and F-BAC know-how, training and mentoring hub to be locally available for scaling and sustainably supporting the districts' child protection systems towards operationalizing Government of India's Mission Vatsalya guidelines.

Through comprehensive training, mentoring and strategic interventions, the seven identified Centers for Excellence are being actively facilitated to gear up to become the champions of family-based care.

**SNEH**

**Supporting, Nurturing & Enabling  
Happy Families**

A Compendium of Perspectives & Practices on  
Family-Based Alternatives from the  
Governments, Practitioners & Stakeholders

Volume 1: 2025

## Launch Of SNEH Compendium

Miracle Foundation India launched 'SNEH: Supporting, Nurturing & Enabling Happy Families' in February 2025, a resource that captures stories of change, community voices and best practices from across states and partners, besides the emerging trends and policy shifts shaping the future of family-based care in India. View the full compendium [here](#).

Together with global platforms, such as Better Care Network and Global Social Service Workforce Alliance; and national forums like India Alternative Care Network, National Action & Coordination Group for Ending Violence Against Children, and Transform NEEV Collective, we are amplifying the narrative of family-based care.

# HIGHLIGHTS FROM THE YEAR

## Vedanta Delhi Half Marathon 2024

The Miracle Foundation India team participated in the Vedanta Delhi Half Marathon (VDHM) on October 20, 2024, in New Delhi. Keeping the vision of 'A family for every child' front and centre, our incredible team of runners laced up and took on the VDHM 2024 to make a difference in the lives of children. We're honored to have run for a cause, inspiring a community to support a safe, healthy and happy childhood for all children!

Additionally, our young intern, Rania Sarker, passionately championed our mission. Her efforts raised significant awareness about the importance of children growing up in loving, nurturing environments, and helped raise nearly ₹1.25 lakh towards this crucial cause. Thank you, Rania!

- Child Care Reform in India: Emerging Trends and Strategic Approaches, at 5th Global Conference on Children and Youth Inbox Abstract

## State-Level conference on 'Mission Vatsalya' scheme in Jharkhand held

Ranchi, Dec. 14 -- A state-level conference was held in Jharkhand to ensure the effective implementation of the Mission Vatsalya Scheme and to strengthen child protection mechanisms. This programme was organised under the guidance of the Department of Women, Child Development and Social Security and the Jharkhand State Child Protection Institution, with the collaboration of the Child Welfare Association and the Miracle Foundation. The conference witnessed participation from 225 child stakeholders across various districts, including representatives from CWC (Child Welfare Committee), DCPO (District Child Protection Officers), DEC, DLO, and several non-governmental organisations.

## Half marathon, but full enthusiasm: 'Spirit of giving' to come alive again

A student at The Shri Ram School, Mousari, Sarkar (17) raised Rs 1.2 lakh for Miracle Foundation India. Her philanthropic journey started last year during an internship. Inspired by her father's values of compassion and responsibility, Sarkar has since participated in multiple initiatives. Among the top fundraisers, Deepak Sharma raised Rs 16.6 lakh for Udayan Care, a public charitable trust. Anil Chawla raised Rs 5.4 lakh for VIPLA Foundation, supporting its mission to educate underprivileged children.

# THE ROAD AHEAD

As we embark on the next phase of our journey, we recognize the impact we can achieve in transforming the lives of children from vulnerable communities. With a steadfast commitment to our vision of a loving family for every child, we have crafted a comprehensive three-year strategy to amplify our efforts, deepen our impact, and foster sustainable change. This strategy outlines a roadmap that will guide our actions from 2024-2027.

## Partner With State Governments To Help Drive Systems Change

Collaboration with governments is the key to enacting real change to ensure positive outcomes for the children we serve. We will work together to make sure that child separation is only used as a last resort, reunite families, and strengthen the families of children.

*\*AI-Generated Representational Image*

## Catalyse the Ecosystem That Safeguards Children and Supports Families

We are building an ecosystem of partners at all levels to create lasting change for the children and families we serve. We will continue to activate child protection units, forge strategic partnerships with civil society organizations, and transform Child Care Institutions into centers of excellence.

*\*AI-Generated Representational Image*

## Strengthen and Empower Families Through ThriveWell

We will use our ThriveWell Methodology to keep children in families, which is right where they belong. Our comprehensive interventions effectively work on all areas of a family's well-being to ensure its long-term stability.
