

What if the biggest change in a child's life was simply the chance to stay with their family?

Because of your support, Miracle Foundation India is helping make that possible by strengthening families, keeping children out of institutions, and creating the stability they need to grow, learn, and thrive.

As the financial year comes to a close, March offers a meaningful opportunity to extend that impact. Your contribution today helps protect children, strengthen families, and also provides tax benefits under Section 80G of the Income Tax Act.

Together, we can ensure that every child grows up where they truly belong: safe, supported, and surrounded by family.

Warm regards, Team Miracle Foundation India

Transforming Children's Lives through Family Strengthening

In a small village in East Singhbhum, Jharkhand, 17-year-old Pradeep once found himself standing at a difficult crossroads. After his father passed away, the stability of the family began to unravel.

In situations like this, families are often forced to make heartbreaking decisions. Across many communities, financial hardship can push children away from their homes and into institutional care, not because families want that, but because they see no other way forward.

When Pradeep's situation came to light, Miracle Foundation India, along with its partner, Bal Kalyan Sangh, began working closely with the family to strengthen the support around them before the crisis deepened.

The changes did not happen overnight. But with consistent guidance, encouragement, and practical support, the family slowly began to regain stability.

Today, Pradeep continues his education with renewed confidence. He has also begun taking on a leadership role among youth in his community, participating in training programs and encouraging other children to stay in school and pursue their aspirations.

Celebrating Nrupeshbhai Patel

At Miracle Foundation India, as we work to ensure that children grow up in safe and nurturing families, we celebrate the dedication of the child protection workforce that makes this vision possible.

Nrupeshbhai's work focuses on strengthening the district child protection system by building the capacity of counsellors, social workers, outreach workers, and Child Care Institution (CCI) staff on Family Strengthening and Family-Based Alternative Care.

Nrupeshbhai has been leading the Family Strengthening pilot initiative in Sakari village of Kheralu block, Mehsana, working closely with local leaders, including the Sarpanch, Talati (revenue officer), and teachers.

In Kheralu, Nrupeshbhai has been ensuring training for ASHA workers, Anganwadi workers, and Patwaris (village accountant), and conducting monthly reviews with the Block Development Officer to promote the formation of VCWPCs in every gram panchayat.

Marking an important milestone for the district, Nrupeshbhai contributed to the District Child Protection Unit's first tableau on Family Strengthening and Prevention of Child Marriage, presented on Republic Day 2026 in Mehsana.

His commitment is reflected not only in system strengthening but also in individual lives. He identified a family in extreme hardship where a father was caring for four children while the mother was differently abled.

Looking ahead, Nrupeshbhai continues to strengthen prevention and gatekeeping mechanisms by working with Gram Panchayats to build stronger village-level child protection structures and Bal Panchayats.

From Care to Leadership: Youth Ambassadors Making an Impact

Miracle Foundation India's Youth Ambassadors, drawn from Child Care Institutions (CCIs) and local communities, play an important role in raising awareness about child rights and strengthening children's voices.

Currently in 12th Standard, Piya's journey over the past two years has been one of growth and confidence. Through her involvement as a Youth Ambassador, she has developed important life and communication skills.

Piya dreams of becoming an IAS officer so that she can give back to society and support children growing up in circumstances similar to her own.

Miracle Foundation India and Bosch Global Software Technologies Partner to Strengthen Families in Karnataka

Miracle Foundation India has recently partnered with Bosch Global Software Technologies to advance transformative systems change in child protection across Karnataka.

On February 24, 2026, in Bengaluru, together with Bosch Global Software Technologies, we convened a stakeholder workshop bringing together government officials from the Department of Women and Child Development, Karnataka.

The workshop reinforced a shared understanding: children thrive best when families and communities receive timely support. Participants explored ways to align field-level learnings with government priorities and advance collaborative action across Karnataka to build stronger, scalable child protection systems.

This partnership marks an important step toward building stronger, scalable child protection systems in the state. Sustainable care reform requires ecosystems working together, and this partnership strengthens the pathway toward prevention, reintegration, and family-based care solutions that ensure every child grows up in a safe and nurturing family environment.

Young Voices, Real Change: Bal Panchayat Members Engage with State Leadership in Maharashtra

We, at Miracle Foundation India, are pleased to share that Bal Panchayat members from Mokhada in Palghar district of Maharashtra recently met with the Honourable Minister for Women and Child Development, Government of Maharashtra, Smt. Aditi Talkare.

Their courage, hope, and confidence reflected the power of children when given the opportunity to be heard. We extend our sincere gratitude to the Hon'ble Minister for taking the time to engage with and encourage these young changemakers.

We also acknowledge the continued efforts of our partner organization, Parivartan Mahila Sanstha, in empowering children to raise their voices and lead change in their communities.
