A Family For Every Child In Our Lifetime

OUR VISION & MISSION

Our Vision

A family for every child in our lifetime

Our Mission

We empower children from disadvantaged communities to reach their full potential

Miracle Foundation India is a child protection organization committed to ensuring that every child grows up in a safe, stable and loving family. We work across the country with government systems, the social workforce and community organizations to prevent unnecessary separation, strengthen vulnerable families and promote Family-Based Alternative Care for children who cannot remain with their biological families.

Our mission is rooted in a simple belief: children thrive when families are supported. Families are the primary source of care and protection, and strong public systems are essential to help them stay resilient. Across ten states, we partner closely with state governments, district administrations and civil society to improve gatekeeping, early prevention, reintegration and sustained follow-up with families.

Our approach focuses on building the capacity of the social workforce, strengthening public systems and ensuring that responses to children and families are timely, coordinated and grounded in real needs. Through training, collaborative reviews and continuous dialogue with frontline teams, we support the ecosystem to deliver consistent and high-quality care.

Our vision is a child protection system where families receive the right support at the right time, frontline workers have the tools and guidance they need and public systems are equipped to create lasting change. We remain committed to collaboration, learning and partnership so that every child has the opportunity to grow up in a family.

A MESSAGE FROM OUR CHAIRPERSON

Every child deserves the love, security and sense of belonging that only a family can provide.

As I reflect on the year gone by, I am heartened by the steady progress Miracle Foundation India continues to make towards turning this belief into reality. What stands out is not just the scale of the organization's work, but the depth of the change it is creating: working alongside governments, strengthening systems, building the capacity of the child protection workforce, and shifting the conversation from institutional care to family-based care.

This is not work that delivers instant results. It demands patience and collaboration across government, civil society, communities and families. Above all, it requires an unwavering commitment to keeping the best interests of every child at the centre of every decision.

The Board is proud to support an organization that combines compassion with evidence, purpose with accountability, and ambition with discipline. Through the year, we have stayed focused on ensuring that Miracle Foundation India grows responsibly, upholds the highest standards of governance, and remains true to its mission even as its reach and influence expand.

The achievements in this report represent far more than numbers. They represent children who have remained safely with their families. Caregivers who

received the support they needed. A child protection workforce that is better equipped to protect children. Systems that are growing stronger and more responsive. Together, these are meaningful steps towards a future where family-based care is the norm, not the exception.

On behalf of the Board, I extend my sincere appreciation to our leadership, staff, government partners, donors, supporters and communities. Your belief in this mission, and your willingness to work together, continue to make this progress possible.

The journey ahead remains significant, but so does the opportunity before us. We look to the future with confidence and determination, committed to building an India where every child grows up safe, nurtured and surrounded by the love of a family.

Sd/-

Rachna Dikshit
Chairperson, Board of Directors
Miracle Foundation India

A MESSAGE FROM OUR CEO

At Miracle Foundation India, our work is anchored in a truth that does not change: children grow up best in safe, stable and nurturing families. The year 2025-26 affirmed this conviction across every state, every partnership and every life we were privileged to work with.

Across the ten states where we are present, momentum toward family-based care has continued to grow. Working alongside state governments, District Child Protection Units, Child Welfare Committees, civil society organizations and communities, we have deepened our focus on prevention, gatekeeping and Family Strengthening. The shift from responding to crises toward preventing family separation before it occurs is no longer aspirational. It is visible, measurable and real. This year, more than 6,200 children were prevented from being separated from their families.

We have also continued to invest in the social workforce, because lasting change travels through people. This year, more than 3,250 frontline workers, child protection professionals and community stakeholders were trained and supported, strengthening their capacity to identify risk early and respond with care.

The cumulative impact of these efforts is reflected in the lives of children and families across India.

During 2025-26, Miracle Foundation India directly impacted 19,999 children, reached 12,164 families and supported 2,292 children in reintegrating into families and Family-Based Alternative Care. Each number carries a name, a story and a future made more certain.

Our government partnerships deepened further during the year, advancing shared systems that place children and families, not institutions, at the centre of child protection.

None of this is possible without the trust and commitment of our donors, partner organizations, government departments and the remarkable people who form the frontlines of this work. We are grateful, and we remain accountable to the mission we share.

Together, we are building the future we believe in: one where every child grows up in the care of a family that is safe.

Kusum Mohapatra
Chief Executive Officer
Miracle Foundation India

OUR WORK

WE PREVENT CHILD SEPARATION

We ensure children stay with their families by partnering with state governments and activating community-based mechanisms that keep children safe.

WE REUNITE CHILDREN WITH THEIR FAMILIES

We reintegrate children from institutions to families by giving them the proper support to stay together. We prefer biological families and kinship care to institutions whenever possible through support to government bodies and institutions.

WE STRENGTHEN FAMILIES OF CHILDREN

Utilizing our ‘ThriveWell by Miracle Foundation®’ methodology, measuring across five well-being domains (Education, Physical & Mental Health, Family & Social Relationships, Living Conditions and Household Economy), we work alongside the social workforce to ensure children grow up in safe, stable homes.

OUR IMPACT: STRENGTHENING FAMILIES, PREVENTING SEPARATION

Every morning, 14-year-old Niyati (name changed) walks to school, something that once felt out of reach.

In a village in East Singhbhum, Jharkhand, Niyati and her mother are rebuilding their lives with quiet determination. Niyati lost her father when she was very young, and since then, her mother, like many women heading households alone, has worked as a daily wage labourer, earning just enough to get through each day, but never enough to feel secure.

When work became irregular, stability began to slip away. Niyati's schooling was interrupted, and without a steady income or essential documents, the family fell deeper into distress. As options narrowed, the possibility of institutional care began to loom, not because her mother lacked care, but because poverty left the family with few choices.

That is when timely, family-centred support made the difference. In Jharkhand, Miracle Foundation India, along with its partner organization, Bal Kalyan Sangh, works to identify and support families long before separation becomes a reality, strengthening them so they do not slip further into crisis. The team visited the family, listened carefully to their needs and tailored support to build a sustainable, long-term livelihood. With this guidance, the Panchayat Mukhiya and the Gram Rojgar Sewak facilitated the construction of an animal shed while the Agriculture Department provided 5 goats, together establishing a sustainable source of income. Niyati's mother was also linked to the Didi Badi Yojana through which she received seeds to begin small-scale farming.

At the same time, the family was supported in securing essential documents, opening doors to government schemes and social protection. Niyati was linked to the Sponsorship Scheme, ensuring her education would not be interrupted again. And then came the moment that mattered most: Niyati's return to school. She now attends school regularly and aspires to become a teacher while her mother earns a steady income without the fear of separation.

This is what prevention looks like. When families are supported early with livelihoods, education and social security, combined with robust community protection systems, children don't need to be separated to be protected. They can grow, learn and dream right where they belong: with their families.

OUR IMPACT: REBUILDING LIVES THROUGH FAMILY REINTEGRATION

Since 2018, when we, at Miracle Foundation India, made a strategic shift from supporting institutional care to promoting family-based care, we have stood by the belief that every child deserves the warmth of a family. Our partner, Mahesh Foundation in Belagavi, Karnataka, caring for children living with HIV, embraced this transformation, proving that every child, no matter the challenge, deserves the love and stability of a family.

One such story of transformation is that of Abhi (name changed) and his siblings. After losing their parents, Abhi and his siblings were taken in by their maternal uncle. However, the combined burden of financial hardships and the stigma surrounding HIV made it difficult for him to care for all three, ultimately leading to the boys' placement in a Child Care Institution (CCI). Though the CCI provided for their basic needs and education, the separation from their sister and family left them facing deep emotional challenges.

Years passed, but the turning point came when Mahesh Foundation, supported by Miracle Foundation India, recognized the need for a holistic intervention to reunite and empower the siblings as part of the family-based care initiative. Through regular counseling, the siblings slowly opened up to the idea of reuniting and the possibility of living independently, as their uncle's home was no longer sufficient for all of them.

With continued support, the siblings pursued their higher education. Abhi completed a diploma in mechanical engineering; his sister finished her pre-university course and his brother completed training at the Industrial Training Institute. Abhi subsequently secured work as an electrician with the Karnataka Electricity Board (KEB), while his sister started working as a data entry operator with Mahesh

Foundation. Besides, they were trained in financial literacy and provided with rental support for six months. They are currently linked with the Government of Karnataka's UPKAR Yojana, through which they receive ₹5,000 every month. The siblings are now aspiring for government jobs, with Abhi specifically aiming for a permanent position in KEB.

Though the siblings initially faced rejection from relatives due to the stigma surrounding their parents' HIV status, the community has slowly begun to reconnect, inspired by their resilience and steady progress. Together, they are carving out a life of dignity and purpose, living independently, and even exploring legal options to reclaim their ancestral property and create a home of their own. Once separated by circumstance, they now stand united by choice!

We are grateful to our partners who have played a pivotal role in making this transformation possible. Together, we are working towards a future where every child has the opportunity to thrive in a loving and supportive family environment.

OUR IMPACT: STRENGTHENING FAMILIES THROUGH SOCIAL WORKFORCE

At Miracle Foundation India, as we strive towards enabling children to stay with their families and reach their full potential, we honor the incredible social workforce that makes it all possible! Through this annual report, we celebrate the efforts and achievements of Sumita Dey from Tripura and Navneet Joshi from Gujarat.

Sumita Dey: Building Pathways to Family and Belonging

Since beginning her work in child protection in 2016, Sumita Dey, Program Manager at Voluntary Health Association of Tripura (VHAT), has played a significant role in advancing family-based care for children.

Her work took a defining turn when she began engaging closely with children in institutional care and saw that while institutions provide protection, families offered something deeper, a sense of belonging, stability and the foundation for a child's holistic development. Determined to help children return to family environments, Sumita became deeply involved in Family Strengthening (FS) and Family-Based Alternative Care (F-BAC). As an empanelled Adoption Social Worker under the Department of Social Welfare, she has worked closely with Child Care Institutions (CCIs), district authorities, and child protection stakeholders to ensure safe and sustainable transitions into family care. Her efforts have led to six successful adoptions and 10 foster care placements, including helping two siblings found alone on a railway platform find a permanent, loving family, restoring not just their safety but their sense of home.

Beyond placements, Sumita has focused on strengthening families themselves. Over the past decade, she has supported the reintegration of more than 200 children with their biological families,

extended families or alternative care arrangements.

Through counselling, family preparation and follow-up, she has helped ensure that reintegrations are stable and centred on the child's best interests. She continues to champion adoption and foster care, including for older children, challenging assumptions and expanding possibilities for those often overlooked. Sumita's journey reflects the transformative impact of a committed social worker, helping children move beyond institutional care into environments filled with love, dignity and lasting belonging.

Navneet Joshi: Transforming Child Protection in Bhavnagar

For Navneet Joshi, Protection Officer, Institutional Care, in Bhavnagar, Gujarat, child protection is not just a responsibility; it is a commitment to ensuring every child grows up in the care and support of a loving family.

Navneet Joshi Ji once believed that children from vulnerable communities were best supported through systems, schemes and institutions rather than their own families. However, engaging with Family Strengthening (FS) and Family-Based Alternative Care (F-BAC) approaches, over time, transformed the way he envisioned their futures, and he subsequently started supporting the reintegration of children with their families.

Navneet Ji has helped reunite 629 children from Bhavnagar with their families. This includes 28 children from other states and 19 from districts within Gujarat. In yet another case, five children aged 14-16 from Bhavnagar city, who had been involved in child labour, were rescued by the District Child Protection Unit (DCPU). Navneet Ji brought them to a Child Care Institution (CCI), counseled the children and their parents, and successfully reintegrated them with their families. These children are now attending school regularly and performing well under his close monitoring.

Additionally, Navneet Ji has facilitated the re-enrolment of 48 children who had dropped out of school and has placed 25 children in Anganwadis. He has also helped 112 Children in Street Situations from Bhavnagar obtain birth certificates, ration cards and Aadhaar cards, and ensured their enrollment in classes under the Sarva Shiksha Abhiyan.

Looking ahead, Navneet Ji plans to identify children of single parents from the CCIs and reunite them with their families while linking them with sponsorship schemes. He also aims to strengthen his work further by collaborating closely with Village-Level Child Protection Committees and Bal Panchayats to focus on family strengthening efforts.

1,484 YOUTH
reached

17 YOUTH AMBASSADORS
creating change in their communities

OUR IMPACT: STRENGTHENING FAMILIES THROUGH YOUTH ACTION

Miracle Foundation India's Youth Ambassadors, drawn from Child Care Institutions (CCIs) and local communities, play a vital role in raising awareness about the importance of a family for every child and driving meaningful impact. Through this annual report, we celebrate Merlin Sofiya from Tamil Nadu and Ritesh Pandit Paikarav from Maharashtra.

Merlin Sofiya: From Care Experience to Youth Leadership

Since becoming a Youth Ambassador in 2022, Merlin Sofiya from Tamil Nadu has transformed her lived experiences into a source of encouragement and support for others.

Born into financial hardship and with a mother battling chronic illness, Merlin was placed in multiple CCIs before finding stability at an institution in Erode. There, she began to thrive, excelling in academics, participating in co-curricular activities and growing into a confident young woman. With consistent support from her CCI and Miracle Foundation India, Merlin actively participated in Life Skills Education, which helped her build emotional resilience, and develop essential decision-making, communication and relationship skills. After completing Grade 12, she followed her dream of pursuing justice and was admitted to Government Law College, Katpadi. She is now enrolled in a five-year Bachelor of Arts and Bachelor of Legislative Law (B.A. LL.B.) program, and regularly visits courts with her seniors to gain hands-on legal exposure.

But Merlin's impact goes beyond the classroom. As a proud Youth Ambassador with Miracle Foundation India, she now supports other young people transitioning out of care and often speaks at youth

group meetings. She shares her journey to inspire hope, facilitates life skills sessions and provides peer support to children during their reintegration into families or independent living. She was also one of the panel members at a national seminar held in Kochi, Kerala, in October 2024, organized by Don Bosco National Forum for the Young at Risk.

Living near her college with friends and supported by a guardian, Merlin's journey reflects how the right support, care and determination can help a child rise above adversity and build a brighter future.

Ritesh Pandit Paikarav: Championing Child Rights and Community Change

Ritesh Pandit Paikarav joined our Youth Ambassadors' Program in 2023, determined to create better opportunities for children and young people and contribute to meaningful change in his community.

Currently pursuing his B.Com., Ritesh balances academics with his passion for cricket, photography, video editing and contributing to social causes in his community. He became a Youth Ambassador with Miracle Foundation India, motivated by the challenges he saw in his community and determined to ensure every child in his community has access to education, safety and the chance to grow with dignity.

He has attended workshops on child rights, youth leadership and child protection; created awareness videos on child rights, child-friendly police stations, environmental conservation and community development; conducted interactive capacity-building sessions for children (aged 14+) on child rights, gender equality, environmental awareness, prevention of child marriage and life skills; and led community initiatives with the Municipal Corporation and local leaders, resulting in improvements in street lighting, water supply, drainage and waste management in his community.

Looking ahead, Ritesh aims to develop his skills to support youth leadership, provide career guidance and awareness programs, and empower young people to create stronger, self-reliant communities.

HIGHLIGHTS FROM THE YEAR

Jharkhand's First Child Welfare and Protection Committee Formed and Trained in East Singhbhum under Mission Vatsalya

Miracle Foundation India, in collaboration with Bal Kalyan Sangh, supported a historic step in Jharkhand's child protection journey on September 18, 2025, with the formation of the state's first-ever Child Welfare and Protection Committee (CW&PC) in East Singhbhum district in alignment with Mission Vatsalya.

Following its establishment, a one-day training program was held in Boram block, organized by the district administration with support from both organizations, to equip committee members with the knowledge and skills needed to strengthen child protection system. 71 participants, including Panchayat representatives, Anganwadi workers, teachers, volunteers and young leaders, received training on identifying child-related cases, understanding national and international child protection laws, and fulfilling their roles and responsibilities as per Mission Vatsalya guidelines. The training also highlighted the importance of the Gram Panchayat Development Plan (GPDP) in creating child-friendly Panchayats, enabling communities to prioritize education, health, nutrition, safety and participation for children.

Emphasizing collective responsibility, Block Development Officer, Mr. Kiku Mahto, noted that active engagement from all stakeholders is crucial to combat child marriage, child labour and abuse, setting a strong precedent for child protection across the state. This initiative marks a significant step toward creating safer, more supportive communities for every child in Jharkhand.

Strengthening Child Protection in Telangana and Gujarat

At Miracle Foundation India, we believe that protecting children and strengthening families requires coordinated action.

In Telangana, as part of our ongoing work in Utkoor and Pulimamidi villages of Narayanpet district, it was observed that many children were admitted to Child Care Institutions (CCIs) due to barriers in accessing education, as the absence of transportation made schooling difficult. Working closely with the Department of Education and with support from the District Education Office, bus services were facilitated from interior villages to the Panchayat primary school. As a result, more than 70 children, including five newly admitted with the team's support, are now able to access education, helping prevent school dropouts and reducing the likelihood of children entering CCIs for educational reasons. This convergence is ensuring that children from vulnerable communities can continue learning while remaining with their families.

In Gujarat, Miracle Foundation India was invited by the Social Justice and Empowerment (SJE) Department as a technical partner to orient newly recruited government child protection functionaries, Child Welfare Committee (CWC) members, Juvenile Justice Board members, and Child Care Institution (CCI) staff from across the state in Gandhinagar. Around 300 participants were oriented on Mission Vatsalya, child rights and child protection. Additionally, in collaboration with the Gujarat State Child Protection Society, SJE and other authorities, efforts were undertaken to strengthen community-based child protection systems, promote family-based care and reinforce preventive approaches that help children remain safely within their families.

Together, these efforts demonstrate the power of convergence in action.

Bal Panchayat Members Engage with State Leadership in Maharashtra

We, at Miracle Foundation India, are pleased to share that Bal Panchayat members from Mokhada in Palghar district of Maharashtra had the opportunity to interact with the Honourable Minister for Women and Child Development, Government of Maharashtra, Smt. Aditi Tatkare.

Organized on February 10, 2026, with support from Parivartan Mahila Sanstha and the Hon'ble Minister's Office, the interaction included representatives from seven Bal Panchayats. They shared about their work on child protection and raised critical issues like school safety, early marriage, child labour, migration and the need for child-friendly villages.

Their courage, hope and confidence reflected the power of children when given the opportunity to be heard. We extend our sincere gratitude to the Hon'ble Minister for taking the time to engage with and encourage these young changemakers.

We also acknowledge the continued efforts of our partner organization, Parivartan Mahila Sanstha, in empowering children to raise their voices and lead change in their communities. Together, these initiatives contribute to strengthening children's participation and building safer, more inclusive communities.

Championing Youth Voices at 6th Biennial International Conference on Alternative Care for Children

On October 15-16, 2025, Albert Justin, Lead, Youth Program, Miracle Foundation India, participated in the 6th Biennial International Conference on Alternative Care for Children in Asia.

Albert represented Miracle Foundation India at this international platform organized in Kuala Lumpur, Malaysia, presenting during the Care-Experienced Youth Sharing Session. Albert, together with other panelists, talked about the challenges faced by care-experienced youth and the positive steps taken towards their empowerment. The challenges spoken about included social stigma and exclusion, gaps in legal recognition and identity, and limited access to services, including education and health support.

The panelists also talked about the progress that's underway. It was noted that care-experienced youth are increasingly represented in national and international decision-making spaces, thereby building their confidence, visibility and leadership. Governments and courts are also pushing forward aftercare guidelines, financial aid, mental health support and housing solutions. Additionally, their peer networks are growing, offering safe spaces and emotional healing. It was also mentioned that NGOs are collaborating on programs that build life skills, career readiness and emotional resilience.

Overall, it was noted that there's a broader shift toward family-based care and strengthening families before separation ever happens. The panel closed on a unanimous note stating aftercare must be consistent, inclusive and youth-informed.

Leadership Dialogues

During 2025-26, we, at Miracle Foundation India, hosted five editions of our Leadership Dialogue series, in collaboration with India Alternative Care Network, bringing together diverse stakeholders to advance the discourse on Family Strengthening (FS) and Family-Based Alternative Care (F-BAC) in India.

The sixth edition of Leadership Dialogues, held in July 2025, emphasized the importance of collaborative action across government, civil society and local self-governance (with special focus on Gram Panchayat and communities), to ensure families are strengthened and unnecessary child separation prevented.

The seventh edition, facilitated in September 2025, focused on mental health and psychosocial support for children and families. The discussion highlighted policies, innovations and trauma-informed approaches that can strengthen family well-being and improve access to affordable, culturally relevant mental health support.

The eighth edition, held in November 2025, examined the critical role of household economic resilience in preventing child separation. Panelists explored how livelihoods, financial inclusion and social protection measures can strengthen families, reduce vulnerabilities and ensure that no child is separated from their family due to poverty.

The ninth edition, organized in January 2026, focused on education and employability as key pathways for children and young people to thrive. The dialogue brought attention to the importance of quality education, skill development and livelihood opportunities in supporting long-term well-being and successful transitions into adulthood.

The tenth edition, held in March 2026, explored the theme of 'Family Strengthening: Measuring What Matters,' emphasizing the importance of evidence, learning and measurement in demonstrating the effectiveness of FS interventions and informing better decision-making across the child protection ecosystem.

Panels across these sessions featured government representatives, subject matter experts, practitioners, civil society organizations and community leaders, bringing wide-ranging perspectives and practical solutions to the forefront. Collectively, the dialogues strengthened sector-wide understanding and fostered collaboration, helping advance the efforts towards ensuring every child grows up in a safe, nurturing and supportive family environment.
